a week

Duration

15 months

Assessment

Two tutor marked assignments, online discussions, two exams and an individual project

Costs

£8,500 +VAT

Enrolment deadlines

15 August for the course starting in September

Study methods

Small group sessions, online learning resources, tutor-guided forums

Covering a detailed understanding of corporate treasury management, the MCT will arm you with a holistic view of the commercial and financial challenges facing a business. Develop your strategic thinking with content designed around the decisions treasurers are involved in and the people they interact with while making and implementing these decisions.

The five MCT study units are:

1 Treasury strategy

Discover the context of treasury within corporate strategy and look at how different factors combine to influence treasury structure.

2 Treasury applications

Practical exercise unit requiring you to apply your skills to both understand and solve multi-faceted problems that arise in modern treasury.

3 Strategic treasury solutions

Develop your professional judgement, confidence, analytical and practical skills enabling you to transfer theory to practice with case studies on real-life organisations.

4 Revision and examination

Revision of knowledge gained in study units 1-3. Examinations test understanding and strategic application of knowledge.

5 Project

Apply the knowledge and skills developed to undertake an individual project on a subject of your choice, involving in-depth research and planning.
