

# CertITM teaching course Hong Kong

TREASURY, RISK  
AND FINANCE  
PROFESSIONALS

ACT

The average pass rate increases by 20% amongst those who have taken either a tuition or revision course.

Practical in nature, the CertITM teaching course focuses on key numerical techniques, practical exercises and real-time case studies to keep your learning active and help improve your chances of passing your exam. The teaching course is a perfect complement to the CertITM e-learning website.

"The tuition classes helped me understand the key fundamentals and concepts, not just from an examination point of view but also from the perspective of applicability in real work environments"

Shirish Suvarna Standard Chartered Bank

## CertITM teaching course Intensive tuition and revision

### The course:

This is an intensive programme covering elements of both tuition and revision. The focus will be on the key numerical techniques and question answering skills necessary for success in the CertITM exam. Tuition will be interactive and will be based on classroom notes incorporating detailed illustrations and worked examples to facilitate a thorough learning experience. Students will be issued with a comprehensive study guide approximately 6-8 weeks before course commencement detailing required pre-course work to help maximise the effectiveness of the programme.

### Topics covered during the course:

Unit 1 - The fundamentals of Treasury

Unit 2 - Corporate Financial  
Management

Unit 3 - Capital Markets and Funding

Unit 4 - Cash and Liquidity  
Management

Unit 5 - Risk Management

Unit 6 - Treasury Operations and  
Controls

Exam preparation and Practice
