Face-to-Face learning workshops

Timetable for October 2014 exam sitting

London and international locations

Why attend face-to-face workshops?

About workshops

Our workshops are designed with one objective in mind – to provide you with all you need to know to pass first time. The workshops are written to complement ACT course materials, are exam focussed and emphasis active learning. Our workshops are run by ACT accredited tutors who have the skills and expertise in our core subject matters.

Tuition

Tuition is intensive with each day focusing on the understanding and practice of fundamental topics. You will work through practice questions to help you focus on your exams. There will be an emphasis on exam techniques which will give you the perfect grounding to help you prepare for your exams.

Revision

Revision helps to combine knowledge learned (either through self-study or attending tuition) and focuses your attention on exam practice. You will learn essential exam hints and tips to help you prepare for your exams and will work through exam standard questions from the Question Bank.

Our classroom courses are ideal if you like:

- Classroom structure
- Interactive learning
- Informative and clear presentation of topics
- Question practice
- Networking opportunities
