PROFESSIONALS**

Future Leaders in Treasury

We recognise that the early stages of any treasury career needs to be supported through initiatives to help younger members to grow.

The ACT Future Leaders in Treasury group provides an opportunity for members in the early stages of their career to help shape the profession – we really want to know what you think. The group will help develop a community for young treasury professionals.

Objectives and strategy:

The group is designed to engage with younger treasury professionals, to provide support in networking, career development and thought leadership and to promote the ACT through building a strong and sustainable relationship.

We will endeavour to create a dynamic and fruitful debate in three ways:

- Face-to-face networking and events;
- LinkedIn group promoting news, articles and views from the group;
- Online round table discussions and webinars discussing current topics and areas of interest.

Chairperson:

Agnes Favillier
